Task 2

Prepared By Eng. Mariam Badr

Q1. Write a Program that takes a number from user then prints “yes” if number is even and “no” if number is odd

For example:

input

```
8
```

output

```
YES
```

Q2 Write a program that prompts the user to enter the grade for student and show up a message for him

1-if he gets A write Excellent

2-if he gets B write Outstanding

3- if he gets C write Good

4-if he gets D write Can Do Better

5- if he gets f write Failed !

if user entered another grade write invalid grade

for example

input

```
A
```

output

```
“Excellent”
```

example 2

input

```
I
```

output

```
“Invalid Grade”
```

Q3. Student Report Card A student has two test scores (double). Calculate the average,

check if they passed (>= 50),

then print their grade using else if:

90+ → A

80–89 → B

70–79 → C

60–69 → D

below 60 → F

Q4. Read the code below carefully , then do a Tracing for the Steps that the code goes through

```
1 void main() {
2       int number = 14;
3
4       if (number % 2 == 0) {
5           print("Even number");
6       } else {
7           print("Odd number");
8       }
9   }
```
